FREEDOMBULWARK

World Wide Resistance Movement Fighting Islamic Domination

Official User Guide

Preface

FreedomBulwark.net is a web 2.0 based social networking cum Blogging website under Faith Freedom International (FFI) organization founded by Ali Sina.

FreedomBulwark.net is a network of people who value their freedom and want to defend it.

The world is under siege. Islam is once again in jihad mode. Muslims are determined to take over the world and make Islam dominant. They don't want to convert you; they want to dominate you.

[FreedomBulwark](http://FreedomBulwark.net) is a project of [Faith Freedom International](http://FaithFreedomInternational.com). Countless people express their fear to us about the future of their countries and the uncertainty that awaits their children. The mainstream media is whitewashing the danger of Islamofascism and the politicians are either oblivious to the threat or have sold their integrity for votes. Some, like Barak Hussein Obama, are actually working against the interest of their own country and directly helping Islam. Meanwhile, Saudi Arabia and Iran, the two countries that are at the top of the list of human rights violators, are spending billions of petrodollars to spread Islam worldwide, to convert the non-Muslims and even use them as terrorists against their own people.

But let us not fear. "To conquer fear is the beginning of wisdom," said Bertrand Russell. And in the words of Franklin D. Roosevelt, "The only thing we have to fear is fear itself—nameless, unreasoning, unjustified terror which paralyzes needed efforts to convert retreat into advance."

We must change the fear into determination and convert the retreat into advance. It is time to unite. Together we can defeat the menace that threatens our freedom and our world.

If you are concerned about the creeping Islamization in your country, join FreedomBulwark. Find likeminded people from your area and network together. Writing blogs is not enough. We need to do more. To fight a monster like Islam that is supported by over one billion jihadists who will not hesitate to murder others or sacrifice their own lives for its spread we need to become an army.

FreedomBulwark is a social networking site, where all those who are concerned about the spread of Islam can join, form groups and confront the enemy with political action.

No one knows the problems that your community is facing better than you and those who are part of your community. Join FreedomBulwak, find likeminded people and together bring the desired change.

We are many, but not organized. FreedomBulwark is a hub where we can meet, exchange the news, share ideas and put in action our plans. Complaint is not enough, it's time for the politicians to change or be changed. Together, we can bring down our dhimmi governments and the fifth column politicians among us. Together we can take our countries back.

Freedom does not come free. It is earned with sacrifice. We owe our freedom to those who fought for it before us and we owe to our children to protect it.

Even if we come from different countries and different races, we are all under the same attack. Islam wants to dominate everyone.

We are not born Muslims, Jews, Christians, Hindus, atheists, Americans, Italians, or Russians, but humans. It is our humanity that unites us together. What defines humanity is freedom. Today our freedom is under attack.

The road ahead is long and arduous, but a journey of one thousand miles starts with the first step. Let us take your first step now.

Join FreedomBulwark, share your thoughts, find likeminded people in your area, form political groups and set in motion the anti Islamization movement to save your country and the world.

Muslims are divided and spill each other's blood in every opportunity, but they are united in one thing and that is in spreading Islam. They are over a billion and every one of them is a soldier of jihad. If they are not terrorists they promote Islam through deception. Each Muslim is a jihadist in their own way. Their youths target our young girls in what they call "love Jihad," their intellectuals write flowery articles presenting Islam as peaceful and compatible with democracy, their women are baby factories, and everyone contribute huge sums to Islamic "charities," which is spent to promote Islam.

To defend our freedom we have to defeat Islam. To defeat Islam we must work together.

The last decade was the decade of awakening. Faithfreedom.org sounded the clarion starting from 1998. We were the first to warn about the treat of Islam. Today there are thousands of sites echoing that very message.

This new decade will be the decade of resistance. People have woken up. It is now time to resist Islamofascism and defeat this monster.

People are becoming fed up with Muslims' bullying and their never ending demands for preferential treatment while at the same time they disdain their host countries abuse their system and even rape their young woman. Enough is enough. The giant has awoken and the resistance is building up.

There's strength in numbers. We are many, but scattered and unorganized. It is time to come together – cooperate internationally and change the world locally. Together, we can move mountains.
